

# TANGO

Audio in the Home by AMX

# The best-looking sound on the market . . .

Bringing brilliant audio to your home is now easy and looks good too.

Welcome to Tango, the fully compatible distributed audio solution from AMX that provides audio in every room of your home with style and convenience.

A Tango Distributed Audio System by AMX is like stepping into the perfect acoustical dream. The music surrounds you with the clarity and brilliance from every direction. With your fine tuning, you hear every last note like it was for the first time. But it doesn't stop there. The Tango Audio Controller and expansion devices are uniquely designed to be set out and displayed or can be discreetly tucked away behind the scene to provide a single, central point of audio distribution. Your source equipment co-exists in the same space to provide CD, DVD, iPod audio; AM, FM radio; XM, Sirius satellite radio and more – to every room/zone in your home.

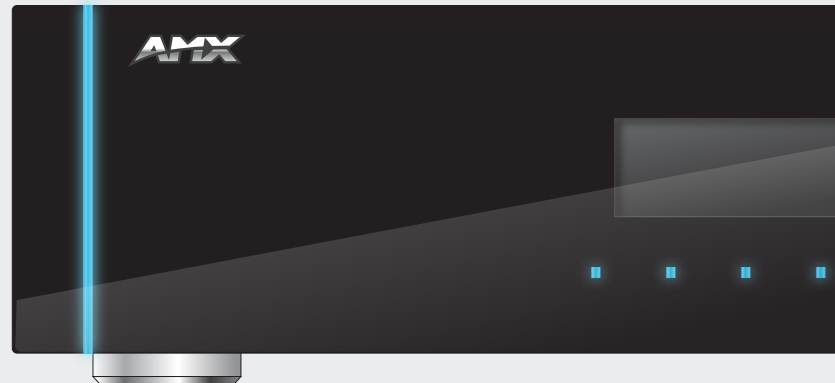

Keypads, remote controls, or upgradeable touch panels are located in each room/zone to provide centralized control. Pre-label and program these keypads, remotes and/or touch panels to your favorites and to perform multiple functions all at the press of a button.

A Tango Distributed Audio System by AMX offers you a reliable, flexible, expandable, sophisticated and intuitive way to listen to music in your home. From the cool blue glow of the light bar and razor-sharp styling of the Tango Audio Controller to the mirror-matched, aesthetically appealing Metreau Keypads, AMX gives you the best looking sound for your home.

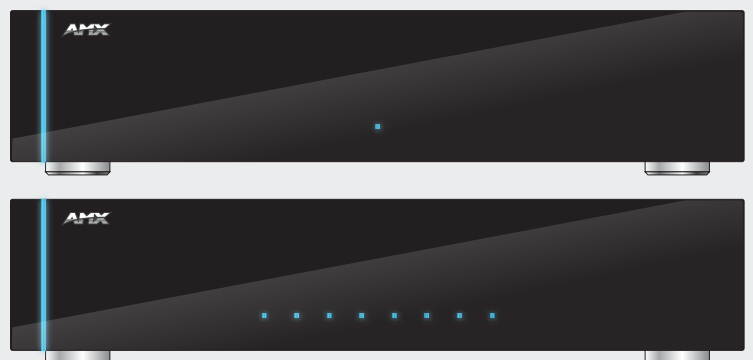

## AMX Tango Advantages

- Available in 4 and 8 Zone Controllers (expandable to 64 total zones)
- Available with 8 Audio Source Options (CD, DVD, iPod Players; AM, FM Receivers; and XM, Sirius Satellite Tuners)
- Sophisticated, sleek Tango Audio Controller Faceplates designed to stand out in the open with matching expansion components and automation controllers
- Includes Metreau Audio Keypads in White, Black and Light Almond with the same mirror-matched, aesthetically appealing look and intuitive, easy-to-use functionality at the press of a button
- Metreau Audio Keypads offer room/zone “wake up” upon pressing a button, source selection/control, volume, paging, an alarm clock and can be programmed to perform macro events.

## ▶ How Your Metreau Audio Keypads Work

• **Listen to my CD/DVD** - Simply press the **CD** or **DVD** button on your room/zone keypad and listen to the most recent selection, or press the left/right sides of the **Navigation Wheel** to change tracks, press the center select button and listen.

• **Listen to my iPod** - Simply dock your iPod in your docking station connected to your Tango Controller and press the **iPod** button on your room/zone keypad, and listen to the most recent selection or press the left/right sides of the **Navigation Wheel** to change tracks, press the center select button and listen.

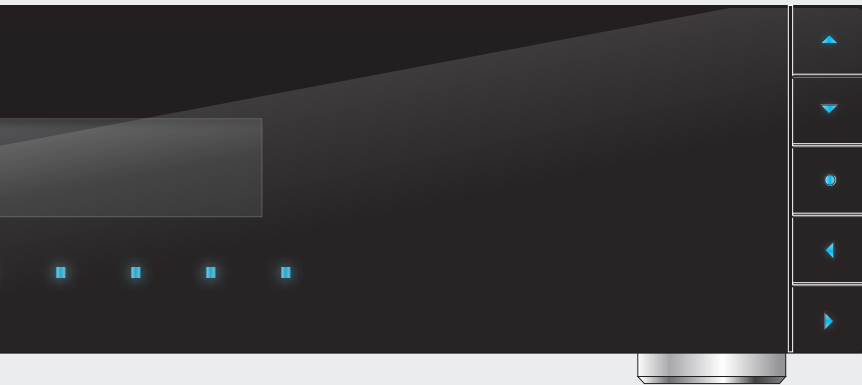

• **Listen to my Radio** - Simply press the **FM**, **AM**, or **FM/AM** button on your room/zone keypad and listen to the most recent station or select a new station by pressing your custom, pre-programmed buttons or by pressing the call numbers of your favorite station using the numeric keypad.

- **Look to the Light** - When pressed, a blue LED illuminates each button to confirm your selection.
- **On-The-Spot Sound Adjusting** - Simply press and hold the bottom two buttons on your 6-source keypad at the same time and you can set or adjust the audio treble, bass and balance within that room/zone.
- **An Alarming Resource** - Simply press and hold the **10** and **11** buttons on your numeric keypad at the same time and you can set an alarm clock that will play the music of your choice in that room/zone.
- **Setting Limits** - The window displays small LED lights that ramp up and down as you adjust volume or lights.
- **Navigation Made Easy** - This intuitive, tactile navigation wheel offers the simplest way to adjust volume. Just turn the wheel on your room/zone keypad to adjust the volume, press up/down to scroll lists, and press left/right to skip tracks/songs.

Turn the navigation wheel clockwise or counter-clockwise to adjust volume.

Press top, bottom, left, right or the center button to activate audio source controls like next/previous CD tracks/songs, seek next/previous radio stations.

## AMX Planning for the Automated Home of the Future – Today

Welcome to luxury, convenience and simplicity in your automated home. Here your unified system integrates and controls all your audio/video, environmental and communication technologies to suit your lifestyle. AMX understands complex technology and makes it simple and convenient to use. In short, life just got a whole lot easier.

From distributed audio systems to automated lighting and sublime multimedia rooms, it takes careful planning to design and install technology that complements your home and lifestyle. An automated home isn't science fiction any more. In fact, it's even easier than you might think. With an authorized AMX Integrator, you'll receive expert design assistance from the start. Your fully customized, ingeniously automated system will simplify the use of multimedia, communication, lighting, security, climate control and more.

**Planning for the future** should include thinking about how your home technology needs might extend beyond a distributed audio system. By considering these expansion plans now, your AMX Integrator can work closely with your architect, builder or interior designer in the initial planning stages to implement a "future-proof" solution that eliminates growing pains.

**Automating your home** represents a significant investment in your home and in technology. To protect your investment's long-term value, you'll want to be sure that your home and system will easily accommodate new innovations in multimedia, networking and communications formats, as well as your family's changing needs. With AMX and our authorized AMX Integrators, future equipment and programming upgrades, as well as capabilities add-ons, are part of the initial system design and ongoing technical support strategy.

**Start the Day** Watch the news, check the weather and warm up the car - with a single touch.

**Movie Magic** Lower the screen, dim the lights and start the movie - "Action!"
