

AUDIO ANYWHERE
SOUNDS SIMPLE,
BECAUSE IT IS SIMPLE.

DELTA SERIES™

MATRIX DELTA SERIES AUDIO CONTROLLERS

Matrix solutions bring together all of your music needs into one easily integrated system that can be accessed from anywhere in your home. AMX is the only company that offers a true "retrofit solution," one which allows the replacement of volume controls with Matrix Keypads and Audio Controllers, giving full control over sources.

DELTA SERIES AUDIO CONTROLLERS

The Delta Series Audio Controller is an affordable, feature-rich multi-zone audio distribution system that allows control and distribution of audio from four sources and to four or six zones. With the touch of one button, the system and source turns on, the volume ramps up and music begins playing. Control all sources such as changing channels, discs, tracks and more. With the Delta Series, listening to music has never been simpler.

PRODUCT HIGHLIGHTS

- 4 Source Audio Controller
- Two Fixed Options:
 - 4 Zones
 - 6 Zones
- 25 Watts per Channel
- 1 Pre-Amp Out
- USB / RS-232 Configuration and Control Ports
- System Kits available that include:
 - Combinations of controller, keypads, tuners and remotes

MATRIX LINE LEVEL CONVERTER

The Matrix LLC enables the installer to add an existing amplifier in a specific zone where additional power is needed, all while maintaining keypad control.

MATRIX STEALTH IR CONTROLLER

The Matrix Stealth IR Controller allows a room to be IR controlled using the Matrix remote. The Stealth incorporates an IR receiver and LED status indicator providing system feedback to the user while eliminating the need for a keypad.

Speaker Wire Technology™

LEFT DATA GROUND RIGHT

Speaker Wire Technology™

With our exclusive Speaker Wire Technology™, control audio via an intuitive keypad interface or the LCD Touch Screen which uses simple four-conductor speaker wire. Speaker Wire Technology is exclusive to Matrix products and allows both data and audio signals to travel over the same four conductors or speaker wire. The versatility of SWT allows Matrix products to be connected where the control wire has been run separately from the audio cable.

SUPERIOR SOUND

Matrix in-ceiling speakers are designed using superior components, providing consumers with great sound at a great price. The architecture of the C Series enclosure incorporates a floating bridge which houses a unique pivoting tweeter assembly that creates directionality for the user.

The C-DT Series Speakers come with a dual tweeter where stereo sound is required, yet there is room for only one speaker. The EL Series Speakers offer exceptional acoustical performance at a modest price. The AMX Matrix Speaker lines are also available with the exclusive SWT Technology which includes an IR Receiver built into the speaker for remote control convenience.

MATRIX KEYPADS AND REMOTES

Both versions of the KP-LCD Touchscreen feature the combined control capability of the navigation and numeric keypads along with the added benefit of visual feedback of system and source information. Two versions are available; a retrofit version allowing the direct replacement of volume controls while utilizing the same wall box and a flush mount version which includes an easy to fit built in wall mounting system. Each KP-LCD is compatible with all Delta Audio Controllers.

All Keypads are available in four colors.
