The Azzurro is an Italian styled incliner that combines both softness to the hand and boldness to the eyes. This seat will adapt to the styling of any room's décor while remaining the focal point of your guests' admiration. Designed by world-renown German seating designer, Wolfgang Setz, the Azzurro was created with fine art in mind. With unparalleled strength and durability, the Azzurro's all steel incliner frame provides decades of entertainment luxurious entertainment.

About CinemaTech's Quality - CinemaTech's beauty is not just skin-deep. Inside each Act I recliner is a German engineered steel chassis – just like what you'd find under a fine European sedan accelerating down the Autobahn. With a seating platform that is produced from rolled steel constructed of two offset tiers of sinuous, hand assembled wire springs; you will enjoy a lifetime of responsive support and durability. Other support features include a spring-tensioned webbing support system and a reinforced tubular seat and back suspension frame. Hand-tied springs minimize "reflection" or bounce, while maximizing support and comfort. To ensure proper placement, each coil is hand-tied to the others during the manufacturing process. This assures long-term resilience.

About CinemaTech's Leathers and Fabrics - Only the most luxurious full grain leathers are included in the CinemaTech Collection. Purchasing tens of thousands of individual hides each year provides us with the kind of buying power that allows access to the finest leathers available worldwide. Like a quality diamond, each hand-selected hide has individual characteristics that make it unique and rare. CinemaTech also offers alternative fabric options for our entire line of seating with our Butterfly fabric. CinemaTech's Butterfly Fabric in a special micro fiber that is designed and engineered to resist staining for high quality upholstery and luxury cars. With more than 30 different colors available, CinemaTech' Butterfly Fabric combines perceptible softness with the silk-matt grip of a stylish fabric creation. At the same time CinemaTech's Butterfly fabric is unusually hard-wearing and dirt resistant. make it unique and rare.
