# Kaleidescape Speed Reader

KSPEEDREADER

- Imports 6 DVDs or 16 CDs per hour
- 250 disc capacity
- Stack load
- Dual DVD/CD-ROM drives
- Standard 100/1000Base-T Ethernet
- Integrated changer and controller
- Reliable unattended operation

The Kaleidescape Speed Reader is a reliable bulk loader for importing large numbers of DVDs and CDs onto a Kaleidescape System.

The Speed Reader utilizes two DVD/CD-ROM drives to achieve average import performance of six (6) DVDs or sixteen (16) CDs per hour. Each of two input bins accepts a stack of up to 125 discs for a total capacity of 250 discs.

The Speed Reader's proven design assures reliable unattended operation.

The Speed Reader integrates the disc changer robotics and controller electronics into one device and connects directly to Ethernet. Installation and configuration is simple and straightforward. A new import log tracks progress and reports problems making it easy to locate scratched or dirty discs.

## KSPEEDREADER Specifications

### Import Speed / Drives

- 6 DVDs per hour<sup>1</sup>
- 16 CDs per hour<sup>1</sup>
- Dual DVD/CD-ROM drives
